

## Press Release

28<sup>th</sup> Jan. 2020, New York

### Our Chief Analyst Featured as Top Most Expert in Forbes Global Panel on 'AI'

We are pleased to announce that our Chief Analyst of '5 Jewels Research' and Partner of **Stark Consulting Services Inc.**, Mr. **Sumant Parimal** has been emerged as Top Most Expert in a Global Panel of 'AI' (Artificial Intelligence) experts hosted on-line by reputed **Forbes** magazine.

In duration of around three months of this 'on-line' experts' panel on 'AI' which was running on a knowledge portal Currnt.com, in which reputed experts of 'IT' and 'AI' from America, Europe, Asia, Australia have participated, and moderated by New York based Frank Kovacs, ratings of Mr. **Sumant Parimal** remained highest even in the last round of experts deliberations on theme '**Digital Future**', and Mr Sumant retained his **Top Most Expert Position**, which he acquired last month under stiff 'Knowledge Oriented' global peers rated competition.

There were five emerging themes on 'AI' and 'Digital Technologies' which were deliberated by the experts in this panel which ended today.

In earlier years, Mr Sumant was also invited by **Oracle Corporation** to join its Global On-line Experts Panel on '**Blockchain Technology**' in which also he emerged as top-rated Global Thought Leader.

'AI' and 'Blockchain' are two Innovative Technologies which are emerging very fast, and there is race among Tech. Firms and Countries to take early leadership in these innovative technologies.

In his concluding remarks in Forbes Panel, Mr Sumant said "**AI is going to have higher Economic Value leading people and enterprises to perform more in less efforts or resources. 'AI' is going to change how we even account our nation's GDP, as more and more economic value gets created from hidden codes and 'AI' Algorithms, So higher deployment and utilization of 'AI' in Enterprises, Businesses, Government and people's daily life means higher value add in lesser time, hence adding higher GDP value in our Economy.**"

"**AI based business models are difficult to replicate at least within a short period of time when it starts disrupting existing established players in market**" Sumant adds further.

Mr. Sumant can be contacted for interview or analyst perspective on [sumant@starkcsi.com](mailto:sumant@starkcsi.com) .
